FRANCISCO ACOSTA

TECHNICAL SUPPORT / ACCESSIBILITY / PERFORMANCE

01 PROFILE

Web developer with 15+ years of experience building, supporting, and improving production websites for agencies and businesses. Focused on WordPress development and technical support across live environments, including troubleshooting, custom functionality, WCAG accessibility, Core Web Vitals, integrations, and production-safe releases.

Experienced taking work from investigation and scoping through development, QA, deployment, and post-launch support.

15+ YEARS

BUILDING FOR THE WEB

70+ LIVE SITES

SUPPORTED IN PRODUCTION

FULL-CYCLE

SCOPE / BUILD / QA / SUPPORT

02 PROFESSIONAL EXPERIENCE

OCT 2025 - PRESENT | REMOTE

Support Developer Skyhook Interactive

Support and improve 70+ live WordPress websites within structured agency workflows, balancing delivery, stability, maintainability, and production risk.

Diagnose frontend/backend issues, plugin conflicts, regressions, performance problems, and third-party integration failures.

Perform WCAG accessibility remediation and investigate Core Web Vitals and frontend performance issues.

Build and modify functionality with WordPress, PHP, JavaScript, ACF, Gutenberg, Elementor, and integrations through staging, QA, and production.

JUL 2019 - PRESENT | INDEPENDENT / REMOTE

Co-Founder & Web Developer InBites Agency

Co-founded a web agency delivering WordPress and Shopify development, custom functionality, technical improvements, and ongoing support.

Own delivery from requirements and architecture through development, deployment, hosting, maintenance, and post-launch support.

Build custom content systems and frontend features; work with clients and agency partners on scoping, migrations, troubleshooting, and long-term improvement.

JUL 2016 - JUN 2019 | REMOTE

Web Developer SinCaja

Built, launched, hosted, and maintained 30+ WordPress websites, including frontend development, CMS implementation, hosting/DNS, maintenance, security, and support.

FEB 2010 - JUN 2016

Web Developer & IT Support Independent / Freelance

Built and maintained approximately 40 websites using WordPress, Joomla, Drupal, and PrestaShop while supporting hosting, DNS, security, and general IT needs.
